

Antioxidans Formula

The smart combination for efficient cell protection

Antioxidants: protection against free radicals

Antioxidants are micronutrients that react with so-called “free radicals” before those can destroy or modify important structures in the body. Free radicals can form under the influence of UV radiation, ozone pollution, nicotine, drugs or environmental pollutants. A certain exposure to free radicals is normal. If they become rampant however, so-called “oxidative stress” is the result. In order to prevent that, an optimal antioxidant status is necessary. For people subjected to an increased free radical exposure, a dietary support of the endogenous protection system is advisable. This includes stressed- out people as well as people who frequently fly, sunbathe, smoke, drink alcohol or are exposed to environmental pollution. Since antioxidants complement each other’s effects and are recycled upon depletion, a combination of different, antioxidant vital substances makes more sense than the high-dosage intake of a single preparation.

Biogena Antioxidans Formula: With polyphenols and anthocyanins from elderberries, green tea & grape seed

Biogena Antioxidans Formula contains vitamin E from plant sources to improve antioxidant status in cells, tissues and organs. Combined with polyphenol- and anthocyanin-rich plant extracts, vitamin C and carotenoids.

Functions of selected components in this product:

- Vitamin C and vitamin E protect the cells, tissues and organs from oxidative stress
- Vitamin C contributes to the regeneration of the reduced form of vitamin E

Possible applications:

- For a targeted supply of antioxidants
- For maintenance of the antioxidant network in case of increased radical burden caused by stress, smoking or frequent consumption of alcohol

Bioavailable micronutrients in a pure form

- Produced according to the pure substance principle
- No colouring agents, artificial flavourings or covers
- Gluten-free
- Lactose-free
- Hypoallergenic
- 100 % vegan
- Quality tested
- Vegetable capsule shell

INGREDIENTS per daily dose	2 capsules	% NRV*
Elderberry extract	150 mg	-
<i>contains: polyphenols</i>	30 mg	-
<i>contains: anthocyanins</i>	18 mg	-
Acerola fruit juice powder	150 mg	-
<i>contains: vitamin C</i>	25 mg	31
Grape seed extract	50 mg	-
<i>contains: polyphenols</i>	48 mg	-
Green tea extract	50 mg	-
<i>contains: polyphenols</i>	49 mg	-
<i>containing: Catechins</i>	40 mg	-
<i>containing: Epigallocatechin gallate</i>	30 mg	-
Mixed tocopherols	40 mg	-
<i>corresponds to vitamin E (mg alpha-TE)</i>	11 mg	92
Beta-carotene	1 mg	-
<i>corresponds to vitamin A (µg RE)</i>	160 µg	20
Lutein	7.5 mg	-
Lycopene	0.5 mg	-

* % OF NUTRIENT REFERENCE VALUES IN ACCORDANCE WITH EU REGULATION 1169/2011.

INGREDIENTS

Hydroxypropyl methyl cellulose (capsule shell), elderberry extract, acerola fruit juice powder, mixed tocopherols, bulking agent: powdered cellulose, grape seed extract, green tea leaf extract, Marigold extract (contains lutein), lycopene (from tomato), beta-carotene.

RECOMMENDED DOSAGE

2 capsules daily taken at meal times with plenty of liquid.

NOTE

Food supplement in accordance with EU Directive 2002/46/EC

IMPORTANT NOTICE

Consume a maximum of 800 mg of epigallocatechin gallate per day. Pregnant or breastfeeding women and children under 18 years of age should not consume Anitoxidans Formula. The product should not be taken on an empty stomach or on a strict, low-calorie diet, and should not be taken on the same day with other green tea products.

PACKAGE SIZE AND CONTENT

60 capsules (1 month supply), 24 g

Food supplement: The recommended daily dosage should not be exceeded. No substitute for a balanced and varied diet and a healthy lifestyle. Store in a dark, dry place at room temperature. Protect from heat. Keep out of reach of children. Suitable for diabetics. The information provided here is not a statement on healing or a recommendation to self-medicate.
