

Basogena® Kapseln

For the daily intake of valuable base compounds

The acid-base balance

A good acid-base balance is the basis for ensuring that all processes in the body can function optimally and that performance and vitality can be preserved in the long-term. The unbalanced diet of our modern world with the changed environmental conditions and comfortable lifestyle tends to be rather acidic. A base powder containing suitable mineral compounds ensures that the body is supplied with additional bases.

Biogena Basogena® Kapseln:

Biogena Basogena® Kapseln contain selected base-forming mineral compounds for short-term, targeted use or regular supplementation.

Physiological tasks of the vital substances contained:

- Magnesium supports the electrolyte balance
- Calcium contributes to normal neurotransmission
- Potassium and magnesium support the functioning of the nervous system and the normal muscle functions
- The trace element zinc contributes to a normal acid-base metabolism

Possible uses:

- For regular or targeted short-term intake of bases
- To support the electrolyte balance - particularly in athletes

Bioavailable micronutrients in a pure form

- Only active ingredients
- Free of additives
- Without colours, flavours or glazing agents
- Gluten-free
- Lactose-free
- Fructose-free
- Hypoallergenic
- Vegetable capsule shell
- 100 % vegan
- Quality tested
