

# BIOGENA AESTHETICS

## Collagen+ Superior

### Neutral Edition

#### Exceptional Glow inside out

*Glow Coffee: a fascinating combination of coffee enjoyment and the potential of collagen. With the new COLLAGEN+ SUPERIOR NEUTRAL EDITION without sweeteners and flavorings, you can now add Jennifer Aniston's beauty secret to your morning routine. The tasteless microdrink is slightly reminiscent of a tea extract in color and taste and can be used in a variety of ways. The powder can be stirred into fruit juices, smoothies, cold teas and coffees - perfect for those who already love our existing product but want it neutral from time to time.*

#### Radiance at the point of science

Immerse yourself in the extraordinary world of glow, where you radiate from the inside out: BIOGENA COLLAGEN+ SUPERIOR NEUTRAL EDITION delivers the premium blend with the "+", that little something extra in the form of ingredients carefully selected with scientific expertise.

Collagen is the most common protein in the human body and is present in different types depending on the type of tissue. This is also the case in our skin: beneath the visible epidermis lies the dermis, which contains the fascinating structural protein collagen, which impresses with its exceptionally high elasticity. Together with elastin fibers, it stretches together to form a rubber band-like network structure that forms the inner "corset" of the skin. NATICOL® premium collagen mainly contains fish collagen type I peptides. It is characterized by top bioavailability and, as a by-product of responsible aquaculture, also sustainably conserves marine resources.

New skin cells are constantly being formed in the epidermis and this process depends on a good supply of nutrients. Biotin and zinc have been investigated in various studies and their positive effects on skin health, including the maintenance of normal skin, have been proven. Zinc also protects cells from oxidative stress. Blackcurrant extract, which contains anthocyanins, and hibiscus flower extract complete the premium preparation.

COLLAGEN+ SUPERIOR NEUTRAL EDITION - developed to make you glow.

#### COLLAGEN+ SUPERIOR NEUTRAL EDITION

- 7.5 g premium collagen Naticol® with unique fish collagen peptide profile
- Biotin and zinc contribute to the maintenance of normal skin
- Zinc helps to protect cells from oxidative stress
- Zinc has a function in cell division
- Rounded off with blackcurrant extract with anthocyanins and hibiscus flower extract.
- Neutral flavour, without flavorings and sweeteners
