

Ginkgo 80 forte

Plant-based support for memory performance and cognitive activity

Ginkgo: Natural support for mental performance

Mental fitness, concentration and learning ability can be maintained and enhanced by regularly training the memory. Plant substances can also contribute to keeping the brain fit. Thus, an extract from the leaves of the ginkgo tree, for example, ensures that the blood flow in the brain is supported very well. As a result, important nutrients and sources of energy can reach all the cells of the brain. The targeted intake of the Ginkgo biloba extract and other selected substances can intervene to promote mental performance. Furthermore, physical exercise, a balanced diet rich in vitamins and mental training are also good ways of maintaining mental fitness into old age.

Biogena Ginkgo 80 forte: to support the mental functions

Biogena Ginkgo 80 forte is a plant-based preparation with natural, high-quality ginkgo extract in a tested, toxin-free quality to support mental performance.

Ginkgo biloba extract supports the maintenance of cognitive functions and memory.
