Hyaluron & ProCollagen+ Essentials is particularly attractive as a high-quality **vegan weekly treatment, travel size or trial pack** - for a great glow! Compared to our existing bestselling product *Hyaluron & ProCollagen+ Superior*, the formula has been slightly adapted - the attractively priced trial size invites you to get to know it.

The Art of Exceptional Beauty - radiance has never been more multifaceted

Whether nail care, radiant skin or perfect glamorous hair are on your beauty agenda: The Beauty & Glow Microdrink Stick is "The Art of Exceptional Beauty". It is the new way to nourish the skin from the inside out and supply hair and nails with nutrients - with moisture-binding hyaluronic acid, amino acids as collagen building blocks, phytoceramides and selected vitamins and minerals. The natural taste of cherry and rose gives the beauty ritual an aromatic note with a moment of pleasure.

Three blends - one mission: your beauty.

The "+" in Hyaluron & ProCollagen+ Essentials stands for a ground-breaking formula that takes your daily beauty routine to a new level. Three blends merge with revolutionary vegan hyaluronic acid (GREENIURONIC®) from Tremella extract to create the perfect beauty secret.

+ **ProCollagen Blend** with the collagen building blocks glycine, proline and lysine as well as vitamin C, which contributes to normal collagen formation for normal skin function.

+ **GlamourBeauty Blend** with biotin, which supports the maintenance of beautiful skin, vitamin B6 to support hormonal regulation and selenium, which contributes to the maintenance of healthy hair and nails. With silicon, a building block of nails, skin, hair and connective tissue, as well as pantothenic acid. The blend also shines with phytoceramides from gluten-free wheat seed extract (CERAMOSIDES™). Ceramides are natural lipids in the skin.

+ **AntiOx Blend** with zinc, which protects the cells from oxidative stress, as well as the enzyme SOD (superoxide dismutase) from melon juice (EXTRAMEL®) and polyphenols from grape seed and pomegranate extract.
