

# Biogena JUNO®

BIOGENA JUNO® is a tribute to the radiant goddess Juno and to all women who want to live their femininity in a self-confident and active way. Just like its mythological namesake, BIOGENA JUNO® focuses on the needs of modern women - with or without the desire to have children. The high-end special formula combines the latest findings from nutritional research with 14 premium active ingredients that have been tailored in perfect harmony to the needs of women. The ultimate 3-in-1 Female Master Collection for feminine fertility\*, libido\* & wellbeing\*.

## BIOGENA Juno® - The Sparks For Women

"Freude schöner Götterfunken" - inspired by the opening words of Friedrich Schiller's ode "An die Freude", the BIOGENA science team has given the high-end special formula JUNO® that certain something with three exclusive sparks blends.

### The Sparks For Female Fertility

are an exclusive blend of selected vitamins and zinc to support fertility, supplemented with an inositol combination and rounded off with active coenzyme Q10 (KANEKA Ubiquinol™). BIOGENA JUNO® is your exclusive ally on the path to motherhood.

- Zinc supports natural fertility and reproduction.
- Vitamin B6 helps to regulate hormonal activity.
- The supplementary intake of folic acid increases the maternal folate status. A low folate status is a risk factor for the development of neural tube defects in the developing fetus. Women who wish to have children are therefore recommended to supplement with 400 µg of folic acid at an early stage, but no later than one month before the onset of pregnancy, and to continue to do so for 12 weeks after the onset of pregnancy.
- Folate and vitamin D have a function in cell division.

### The Sparks For Female Libido

are a special blend of three very special plant extracts. Take care of your feminine fire with BIOGENA JUNO® - whether you want to enrich your relationship or simply explore your sensual side.

- Damiana (*Turnera diffusa*) contributes to the maintenance of good sexual relationships and sexual desire.
- Saffron (*Crocus sativus*) supports relaxation and emotional balance and helps to maintain a positive mood.
- Maritime pine bark extract (*Pinus pinaster*) supports microcirculation in the capillaries, protects the blood vessel walls and contributes to normal blood flow

### The Sparks For Female Wellbeing

are a blend of vitamins and trace elements for wellbeing and health based on specialist expertise. Women give so much, but often forget that they can also receive. JUNO® supports women in their nutritious self-care and wellbeing

## IMPORTANT NOTICE

We recommend that diabetics and women with a personal or family history of breast cancer consult a doctor before taking a product containing damiana. We recommend that women who wish to have children take it until pregnancy is established and then switch to Nutrifem® Mamma Mia for support tailored specifically to their needs during pregnancy. Not to be taken while breastfeeding or by children under the age of 18.

## PACKAGE SIZE AND CONTENT

65 g (90 capsules)
