

BIOGENA AESTHETICS

MiraSkin+ Superior

The skin: a mirror of life & health

A face and its facial expressions often say more than a thousand words. It not only reflects a person's personality, but sometimes even tells their story. In the course of life, the skin changes due to internal and external influences such as intense sunlight, medication or stress. An unhealthy diet and too little water can also affect the appearance and texture of the skin, as the skin cells are dependent on a good supply of nutrients due to their high metabolic activity. The sufficient intake of special nutrients can help to care for the sensitive organ from deep within.

BIOGENA AESTHETICS MiraSkin+ Superior - The Art of Skin Longevity

With BIOGENA AESTHETICS MiraSkin+ Superior, our tried-and-tested skin classic MiraSkin® Gold has been elevated to AESTHETICS heaven with the help of a makeover: BIOGENA AESTHETICS MiraSkin+ Superior not only shines visually in an elegant gray glass jar, its exclusive formulation also shines in modern splendor thanks to the formula upgrade.

What makes MiraSkin+ Superior so special?

The "+" in MiraSkin+ Superior stands for that little something extra that characterizes the skin longevity formulation. The carefully selected ingredients have been hand-picked using the extensive expertise of our multi-skilled scientific team.

+ **Eggshell membrane OVODERM®:** OVODERM® is a vegetarian raw material that is particularly rich in important structural proteins such as collagen and elastin, but also contains hyaluronic acid. All three substances are also found in our skin. OVODERM® is obtained from eggshell membrane using a patented manufacturing process. In addition to the hyaluronic acid contained in OVODERM®, MiraSkin+ Superior also contains other hyaluronic acids.

+ **Valuable keratin:** Keratin is an important protein found in hair, nails and the outer skin layer. Keratin plays a decisive role in the structure and protection of these tissues. It also serves as a barrier for the skin against external influences.

+ **Exquisite premium polyphenol blend:** This scores highly with olive leaf extract, pomegranate extract, a high-quality grape seed extract (exGrape® SEED) and phytoceramides from gluten-free wheat seed extract (CERAMOSIDES™). The content of selected plant substances - phytoceramides and polyphenols such as ellagic acid, oleuropein and OPC - is standardized.

+ **Cell protection from within:** Vitamin C, copper as well as vitamin E and zinc help to protect the cells from oxidative stress.

+ **With beauty nutrients:** Zinc from zinc picolinate and biotin support the normal functions of the skin. The copper in

turn contributes to the maintenance of normal connective tissue.

+ **With further extras:** Pantothenic acid is important for energy metabolism, among other things, while biotin, copper and vitamin C also contribute to normal energy metabolism. Highly bioavailable coenzyme Q10 (KANEKA UBIQUINOL™) is also part of this fascinating combination.

Unique collagen complex - The Art of Skin Longevity

- The BIOGENA Skin Longevity formulation contributes to normal skin with zinc, biotin, vitamin C and copper
- With collagen, elastin and hyaluronic acid from eggshell membrane (OVODERM®) - supplemented with additional hyaluronic acid
- With keratin, a component of the outer skin layer
- With the beauty nutrients zinc, biotin and copper: ¹Zinc and biotin contribute to the maintenance of normal skin, while copper contributes to the maintenance of normal connective tissue and normal skin pigmentation.
- Vitamin C, vitamin E, copper and zinc contribute to the protection of cells from oxidative stress. Vitamin C also contributes to normal collagen formation for normal skin function.
- With that certain something from nature: with olive leaf extract, pomegranate extract, a high-quality grape seed extract (exGrape® SEED) and phytoceramides from gluten-free wheat seed extract (CERAMOSIDES™)
- Finely rounded off with highly bioavailable coenzyme Q10 (KANEKA UBIQUINOL™)

Product tip: For an all-round Exceptional Beauty & Glow moment, MiraSkin+ Superior can be combined with other BIOGENA AESTHETICS products such as the two microdrink products HYALURON & PROCOLLAGEN+ SUPERIOR and COLLAGEN+ SUPERIOR.

Possible applications

- For premium support and maintenance of normal ^{skin1}
- As a nutritional contribution to support skin function
- For the targeted supply of selected micronutrients, high-quality ubiquinol and selected plant substances

Bioavailable micronutrients in pure form

- According to the pure substance principle
- Without colorants and flavorings
- Gluten-free
- Lactose-free
- 100% vegetarian
- Tested quality
