

Mucosa Formula®

To support the intestinal mucosa

Special formula with the amino acid L-glutamine, high-quality plant extracts and selected micronutrients

The intestinal mucosa is the largest mucous membrane in the human body and a highly sensitive organ. What is the best form of help for the intestine? A simple option is the intake of micronutrients, which can support the intestinal mucosa and furthermore, take-over the key functions in the immune system. Since the cells of the intestinal mucosa are exposed to a constant regeneration process, attention must be paid to the daily supply of these micronutrients. Biogena Mucosa Formula® contains a perfect composition of the amino acid L-glutamine, special plant extracts and relevant micronutrients and can expediently support the needs of the intestinal mucosa.

Mucosa Formula®

- Contains the precursor of vitamin A, which supports the normal functions of the mucous membrane
- Zinc and vitamin D are involved in cell division
- Zinc, selenium, copper, vitamins B6, C and D contribute to the normal immune functions
- Vitamin C, manganese, selenium, copper and zinc contribute to protecting the cells against oxidative stress

Possible uses:

- To support the function of the mucous membranes and cell division
- As a nutritional supplement for the immune system
- To support the antioxidative protection mechanisms

Bioavailable micronutrients in a pure form

- According to the pure substance principle
- Without colours or flavours
- Gluten-free
- Lactose-free
- Hypoallergenic
- Vegetable capsule shell
- 100 % vegan
- Quality tested
