

Prosta Care Superior

Herbal support for the prostate

While the car is regularly taken to the garage for a check-up, the service on one's own body is often neglected. The prostate plays a central role, especially for men, when it comes to preventive care.

Prosta Care Superior: Simply being a man.

Prosta Care Superior is the premium formula to support the prostate*. The highlight of this formula, which is based on the latest scientific findings, is a specially designed Prosta Blend consisting of nettle root extract, saw palmetto fruit extract and African plum tree bark extract. *While nettle supports a healthy prostate, saw palmetto and African plum tree contribute to the maintenance of normal urinary function in men over the age of 45. The Prosta Blend provides a total of 135 mg of free fatty acids and 11.5 mg of the plant substance beta-sitosterol. Pumpkin seed extract in the form of the branded raw material Phytopumpkin™, obtained from Styrian pumpkin seeds, convinces with a standardized content of adenosine. This natural formula is rounded off with particularly bioavailable quercetin (Quercefit®) and lycopene from tomatoes.

To do something good for the prostate and urinary organs, "men" do not have to change their entire lives. Small but continuous changes can already have a supportive effect. This includes a balanced and varied diet, but special plant substances can also make a contribution - Prosta Care Superior makes being a man easy.

Prosta Care Superior

- Gold formula to support men over 45 - developed according to the latest scientific findings
- With beta-sitosterol from the specially designed Prosta Blend (nettle root, saw palmetto fruit and African plum tree bark extract)
- Nettle (*Urtica dioica* L.) supports a healthy prostate
- African plum tree (*Prunus africana* L.) and saw palmetto (*Serenoa repens* L.) contribute to the maintenance of normal urinary function in men over 45 years of age
- With Phytopumpkin™ pumpkin seed extract with standardized adenosine content
- Rounded off with quercetin (Quercefit®) and lycopene from tomatoes
