

The Good Gums® - Immun Edition

The Good Gums®: indulgence with a nutritional plus

The Good Gums® is a new Biogena product line that packs sensible micronutrient combinations into vegan, sugar-free gummy bears. The high-quality gummy bears not only look good enough to eat, they also taste delicious and provide added nutritional value. And all without compromising on the usual radical Biogena quality.

Friends of the immune system

Protective barriers, phagocytes, antibodies - our immune defence system is a real powerhouse. Constantly in action, it's best not to tangle with them. Especially in times of special challenges, it is worthwhile to give our defence team extra support. In addition to sufficient sleep, outdoor exercise and a balanced diet and psyche, selected nutrients like vitamin D can also give the body's own defences a targeted helping hand - well looked after is well armed.

When life gives you lemons - snack on The Good Gums® Immun Edition

Vegan and sugar-free snack bears that help your immune system? Here they are! The Good Gums® Immun Edition with their delicious natural cherry flavour combine the concentrated power of the micronutrient trio vitamin D3, vitamin K2 and magnesium.

Vitamin D not only contributes to the regular function of the immune system, it also supports the maintenance of normal bones together with vitamin K and magnesium. If you eat 3 bears a day (= daily dose), you will consume 25 µg each of vitamin D3 (= 1000 I.U.) and K2, as well as 56 mg of magnesium. For better absorption of the micronutrients contained, it is recommended to consume the gums directly after meals.

The Good Gums® Immun Edition

- Fruity, tasty Vital Bears combine the power of the micronutrient trio vitamin D3, vitamin K2 and magnesium
- With vitamin D3 from algae: Vitamin D contributes to the maintenance of a normal immune system, normal muscle functions, teeth and blood calcium levels
- With vitamin K2 (K2VITAL®) in the highly bioavailable all-trans menaquinone-7 form: Vitamin K contributes to normal blood clotting
- Both fat-soluble vitamins, vitamin D and K, contribute to the maintenance of normal bones
- With well-dosed magnesium: Magnesium supports the nervous system and normal mental function, and helps reduce fatigue and tiredness
- 100 % vegan & sugar-free
