

# Vitamin C liposomal 500

During times of increased need for vitamin C, it can be beneficial to choose a form with particularly high bioavailability. In the liposomal form of vitamin C, the nutrient is encapsulated within lipid particles. Liposomal formulations can achieve higher bioavailability compared to powders.

With **Vitamin C Liposomal**, BIOGENA offers a premium supplement that stands out for its fresh, fruity orange flavor and pleasant taste. The new formula contains a total of 500 mg of vitamin C per daily dose (equivalent to 4 ml) and is easy to take throughout the day. With 100 ml in the bottle, this corresponds to 25 daily doses.

Vitamin C is a true all-rounder when it comes to health:

## Vitamin C

- supports the normal function of the immune system (the body's own immune defenses)
- contributes to the normal functioning of the mind and nervous system
- contributes to the regeneration of the reduced form of vitamin E and to the protection of cells against oxidative stress
- plays a role in collagen formation, supporting the normal function of skin, gums, teeth, cartilage, bones, and blood vessels
- increases iron absorption, helps reduce tiredness and fatigue, and supports energy metabolism

## Bioavailable micronutrients in pure form

- Gluten-free
- Lactose-free
- Fructose-free
- Hypoallergenic
- 100% vegan
- Tested quality
